

MOHAMED AHMED ABD ELMONEAM

Cybersecurity Specialist | Penetration Tester | Bug Bounty Hunter

+20 1120337374 mon3m@wearehackerone.com • mon3m.site • github.com/UniShotProject • Cairo, Egypt

SUMMARY

Detail-oriented Cybersecurity Specialist with hands-on experience in web application penetration testing, bug bounty hunting, and open-source tool development. Identified 20+ vulnerabilities across global platforms including critical-severity RCE and Account Takeover bugs in AT&T and NASA. Creator of UniCrack, an open-source JWT security testing framework. Currently pursuing OSCP.

PROFESSIONAL EXPERIENCE

Bug Bounty Hunter (Freelance) — [HackerOne & Bugcrowd](#)

02/2025 – Present | Remote

- Discovered 20+ vulnerabilities ranging from Low to Critical severity across diverse web targets.
- Found RCE and Account Takeover in AT&T, and Account Takeover in NASA through in-depth recon and exploitation.
- Identified Critical IDOR in Acronis, Subdomain Takeover in Acronis, and OAuth/Hash-leaking BAC in Databricks.
- Performed SSRF attacks on AT&T systems and reported via responsible disclosure.
- Hall of Fame: Acronis, HYPR, AT&T, British Airways, Honda, METRO AG, NASA, The Hut Group.

Network Security Intern — [Optima Professional Services](#)

06/2025 – 07/2025 | Cairo, Egypt

- Conducted network security assessments and penetration tests using Nmap, Wireshark, and Metasploit.
- Collaborated in team-based red/blue team exercises simulating real-world attack-and-defense scenarios.

PROJECTS & TOOLS

UniCrack — JWT Security Testing Framework (Python, Open Source) github.com/UniShotProject/UniCrack

- Built a comprehensive Swiss-army-knife CLI tool for JWT research and exploitation (v3.1.0, 7+ GitHub stars).
- Supports 25+ attack modes: alg:none, key confusion, JKU/X5U injection, brute-force (CPU + GPU via Hashcat), nested JWT attacks, and more.
- Includes a built-in JWKS server, session tracking, and rich CLI output for professional pentest workflows.

EDUCATION

Ain Shams University — B.Sc. Computer Science & Statistics | Cairo, Egypt

Expected 2027

CERTIFICATIONS & TRAINING

- | | |
|---|-------------|
| • OSCP – Offensive Security Certified Professional | In Progress |
| • eWAPT-X – Web Application Penetration Tester eXtreme (eLearnSecurity) | 2025 |
| • eJPT – eLearnSecurity Junior Penetration Tester | 2024 |

TECHNICAL SKILLS

Web Security: OWASP Top 10, SQLi, XSS, SSRF, IDOR, RCE, OAuth Flaws, Subdomain Takeover, JWT Attacks

Tools: Burp Suite, Metasploit, Nmap, Wireshark, Ghidra, FFUF, Nuclei, Amass

Programming: Python, Bash — open-source security tooling

Platforms: HackerOne, Bugcrowd — Responsible Disclosure

Other: CTF Player, Technical Writing

LANGUAGES

Arabic (Native) • English (B2)
